General Maintenance

- Make sure all nuts and bolts are secure before each use.
- Replace any worn or damaged parts with components from Lone Wolf.
- All bolts for this product are Grade 8.

POLYURETHANE TRACTION BELT

APPLICABLE TO: Alpha™ Sit & Climb and Alpha™ Hand Climber

- 1.) With a permanent marker write date of 1st use on each belt.
- 2.) Inspect belt before each use
- 3.) Replace every 5 years or when you observe any of the following:
 - a.) belt has external cracks or tears visible
 - b.) any internal cables are broken
 - c.) any teeth are offset from normal pitch or are torn or cut

(dia. 1)

(dia. 2)

(dia. 1a)

(dia. 2a)

Shown is the proper use of the traction belt for the Lone Wolf Climbers (dia 1). The polyurethane belts are designed to be used on the Lone Wolf products only. Always use your traction in the position that it is shown in dia 1. Never use the belt in this position (dia. 2). Use in this position can cause damage to the traction belt. **WARNING:** Point of arrow marks the end of the belt (dia. 2a). No part of the arrow should be showing after the cams are engaged (dia. 1a). Any failure to follow the instructions may cause belt to disengage and cam to open.

POLYESTER WEB BELTS

APPLICABLE TO: Alpha™ Ladder Stand, Climbing Sticks, Elite™ Hang on, Alpha™ Hang On, Assault™ Hang On, and Assassin™ Platform, Pro Series Hang On & Climbing Sticks

- 1.) Inspect belts before each use
- 2.) Replace every 5 years or every year if left out yearly
- 3.) Replace belts if you observe any of the following:
 - a.) cut or worn webbing
 - b.) buckles are bent or cam release is binding
 - c.) stitching is loose, cut, or becoming unraveled
- 4.) With a permanent marker write the date of the 1st use on each belt

Lone Wolf Back Pack Straps Attachment Instructions

Alpha™ Hang On

This will allow you to properly install the back pack straps to the Alpha™ platform. If you will **NOTE** there are four smooth ribs on the casting of the Alpha™ hang on. This is where you will attach the back pack straps.

Step 1: Take your back pack straps and find the first smooth rib.

Step 2: Go over the top of the bar and keep the stitching face up.

Step 3: Take the tail of the webbing and run it through and back down again through the buckle.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

If you do not understand any of these instructions, please call Customer Service (309-691-9653) or visit our web site (www.lonewolfstands.com)

Lone Wolf Back Pack Straps Attachment Instructions

continued

Alpha™ Hang On: *continued*

Step 4: Take the three bar buckle (which is provided) and feed it through the opposite of the webbing. Keep in mind, you should have 2 bars visible. Find the other smooth rib on the platform. Go over the top of that rib and back through one bar of the buckle and then back through the second bar of the buckle. This will allow adjustment on both the top and the bottom. **Repeat on the other side.**

Assault™ Hang On

The Assault™ Hang On uses the same application as the Alpha™ Hang On. Just keep in mind where the straps will be placed on the platform.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

Lone Wolf Back Pack Straps Attachment Instructions

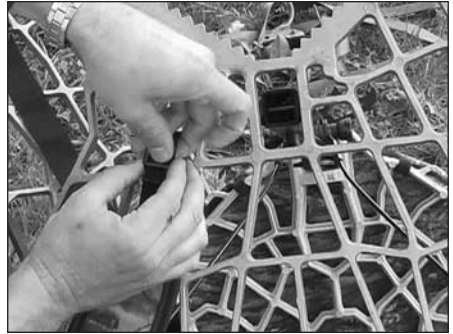

continued

Padded Straps

The third application is our accessory padded back pack straps.

Step 1: Find the smooth rib on the casting.

Step 2: Go under the rib and through the three bar buckle and through the other side.

Step 3: On the bottom, place over the bar, back up to the buckle and through the lower bar of the buckle. Then, go through the top bar of the buckle and cinch tightly.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND
