General Maintenance

- Make sure all nuts and bolts are secure before each use.
- Replace any worn or damaged parts with components from Lone Wolf.
- All bolts for this product are Grade 8.

POLYURETHANE TRACTION BELT

APPLICABLE TO: Alpha™ Sit & Climb and Alpha™ Hand Climber

- 1.) With a permanent marker write date of 1st use on each belt.
- 2.) Inspect belt before each use
- 3.) Replace every 5 years or when you observe any of the following:
 - a.) belt has external cracks or tears visible
 - b.) any internal cables are broken
 - c.) any teeth are offset from normal pitch or are torn or cut

(dia. 1)

(dia. 2)

(dia. 1a)

(dia. 2a)

Shown is the proper use of the traction belt for the Lone Wolf Climbers (dia 1). The polyurethane belts are designed to be used on the Lone Wolf products only. Always use your traction in the position that it is shown in dia 1. Never use the belt in this position (dia. 2). Use in this position can cause damage to the traction belt. **WARNING:** Point of arrow marks the end of the belt (dia. 2a). No part of the arrow should be showing after the cams are engaged (dia. 1a). Any failure to follow the instructions may cause belt to disengage and cam to open.

POLYESTER WEB BELTS

APPLICABLE TO: Alpha™ Ladder Stand, Climbing Sticks, Elite™ Hang on, Alpha™ Hang On, Assault™ Hang On, and Assassin™ Platform, Pro Series Hang On & Climbing Sticks

- 1.) Inspect belts before each use
- 2.) Replace every 5 years or every year if left out yearly
- 3.) Replace belts if you observe any of the following:
 - a.) cut or worn webbing
 - b.) buckles are bent or cam release is binding
 - c.) stitching is loose, cut, or becoming unraveled
- 4.) With a permanent marker write the date of the 1st use on each belt

Lone Wolf Hang On Stands

(Assault™ Hang On, Alpha™ Hang On, Elite™ Hang On, Pro Series Hang On)

Lone Wolf Hang On Stands

continued

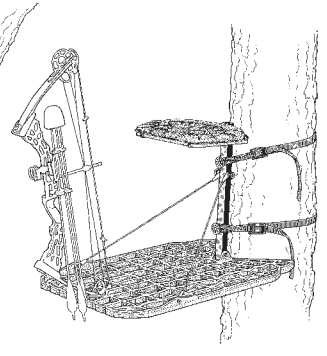

(Assault™ Hang On, Alpha™ Hang On, Elite™ Hang On, Pro Series Hang On)

ASSAULT™ HANG ON (HOSAT)

ALPHA™ HANG-ON (HOSSH)

ELITE™ HANG ON (EHOS)

SYSTEM 1: Offset Bracket (NOT to be used with EZ Hang Hook System)

Step 1: While holding the stand in an open position, center the offset bracket against the tree. With the buckle in hand, wrap the belt around the tree and place the loop over the top versa button and pull the belt tight.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

If you do not understand any of these instructions, please call Customer Service (309-691-9653) or visit our web site (www.lonewolfstands.com)

Lone Wolf Hang On Stands

continued

(Assault™ Hang On, Alpha™ Hang On, Elite™ Hang On, Pro Series Hang On)

SYSTEM 1: Offset Bracket *continued* (NOT to be used with EZ Hang Hook System)

Step 2: Lift the platform up and pull the belt tight again to take up any additional slack in the belt. Pushing down on the rear of the seat at this time will help to ensure a solid set.

Step 3: Lower the platform. Your additional strap can be added at this time.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

If you do not understand any of these instructions, please call Customer Service (309-691-9653) or visit our web site (www.lonewolfstands.com)

Lone Wolf Hang On Stands

continued

(Assault™ Hang On, Alpha™ Hang On, Elite™ Hang On, Pro Series Hang On)

SYSTEM 1: Offset Bracket *continued* (NOT to be used with EZ Hang Hook System)

Step 4: Hold the seat and the tree with your hands. Your treestand should be positioned so that you are stepping downward from your climbing sticks into the center of the platform.

SYSTEM 2: EZ Hang Hook (NOT to be used with Offset Bracket)

Step 1: Fasten the belt hook assembly to the tree. Pull the belt tight.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

If you do not understand any of these instructions, please call Customer Service (309-691-9653) or visit our web site (www.lonewolfstands.com)

Lone Wolf Hang On Stands

continued

(Assault™ Hang On, Alpha™ Hang On, Elite™ Hang On, Pro Series Hang On)

SYSTEM 2: EZ Hang Hook *continued* (NOT to be used with Offset Bracket)

Step 2: Hang the stand onto the hook. Please **NOTE:** make sure to visually check that the hook is in the receiver.

Step 3: Wrap the main belt around the tree. Place the sewn loop over the top versa button and pull tight. You must use the belt on the top versa button when using the easy hang hook. Center the platform against the tree and lower the platform.

Step 4: Hold the seat and tree with your hands while stepping downward into the center of the platform. **PLEASE NOTE:** Your treestand should always be positioned so that you are always stepping downward from your climbing sticks into the center of your platform.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

If you do not understand any of these instructions, please call Customer Service (309-691-9653) or visit our web site (www.lonewolfstands.com)

Lone Wolf Hang On Stands

continued

(Assault™ Hang On, Alpha™ Hang On, Elite™ Hang On, Pro Series Hang On)

SYSTEM 3: Platform Leveler

Shown is the platform leveling device. In order to level your platform, loosen both knobs. Next, place the bar in the selected slot for a level platform. Once that position is selected, re-tighten the knobs.

SYSTEM 3: Seat Leveler

The seat leveler can be adjusted by slightly screwing the leveling bolt in or out for your desired position.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND
