General Maintenance

- Make sure all nuts and bolts are secure before each use.
- Replace any worn or damaged parts with components from Lone Wolf.
- All bolts for this product are Grade 8.

POLYURETHANE TRACTION BELT

APPLICABLE TO: Alpha™ Sit & Climb and Alpha™ Hand Climber

- 1.) With a permanent marker write date of 1st use on each belt.
- 2.) Inspect belt before each use
- 3.) Replace every 5 years or when you observe any of the following:
 - a.) belt has external cracks or tears visible
 - b.) any internal cables are broken
 - c.) any teeth are offset from normal pitch or are torn or cut

CORRECT

(dia. 1)

INCORRECT

(dia. 2)

CORRECT

(dia. 1a)

INCORRECT

(dia. 2a)

Shown is the proper use of the traction belt for the Lone Wolf Climbers (dia 1). The polyurethane belts are designed to be used on the Lone Wolf products only. Always use your traction in the position that it is shown in dia 1. Never use the belt in this position (dia. 2). Use in this position can cause damage to the traction belt. **WARNING:** Point of arrow marks the end of the belt (dia. 2a). No part of the arrow should be showing after the cams are engaged (dia. 1a). Any failure to follow the instructions may cause belt to disengage and cam to open.

POLYESTER WEB BELTS

APPLICABLE TO: Alpha™ Ladder Stand, Climbing Sticks, Elite™ Hang on, Alpha™ Hang On, Assault™ Hang On, and Assassin™ Platform, Pro Series Hang On & Climbing Sticks

- 1.) Inspect belts before each use
- 2.) Replace every 5 years or every year if left out yearly
- 3.) Replace belts if you observe any of the following:
 - a.) cut or worn webbing
 - b.) buckles are bent or cam release is binding
 - c.) stitching is loose, cut, or becoming unraveled
- 4.) With a permanent marker write the date of the 1st use on each belt

Lone Wolf Climbing Sticks Attachment to Stand for Back Packing

(Attaching the Climbing Sticks to the Alpha™ Hang On)

Step 1: To start with, you have two versa buttons with straps. Start with the lower strap and actually run it around the base of the stand two times. Run your loop back over the versa button. Lower your stand and cinch it tightly.

Step 2: NOTE: There are two foot pads molded into the platform. Make sure these foot pads are clear from the straps. We're going to attach the v-bracket from the sticks there at a later time.

Step 3: Take the Lone Wolf Climbing Stick (keep in mind that on every set of sticks you will see some webbing with a buckle- always make sure this stick is on the bottom of your stack).

Step 4: Take the gray webbing and wrap it around the base of the stick.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

Lone Wolf Climbing Sticks Attachment to Stand for Back Packing

continued

(Attaching the Climbing Sticks to the Alpha™ Hang On)

Step 5: Run the loop back up to the versa button and cinch it tightly. This will keep everything neat and compact.

Step 6: Take the remaining two sticks (**NOTE-** the hole on the back of every stick- the hole will line up with the allen head found on the versa button).

Step 7: Line the allen head up with that hole. You should get a nice, snug fit.

Step 8: Then, take the black webbing on the bottom stick and wrap it around the other two sticks, buckle it, and cinch it tightly.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND

If you do not understand any of these instructions, please call Customer Service (309-691-9653) or visit our web site (www.lonewolfstands.com)

Lone Wolf Climbing Sticks Attachment to Stand for Back Packing

continued

(Attaching the Climbing Sticks to the Alpha™ Hang On)

Step 9: Then place the top v-bracket in the two impressions on the seat pad. The two foot pads that were mentioned earlier will accommodate the bottom v-bracket. With slight pressure, the two v-brackets should stay in place.

Step 10: Take your second versa button and figure eight it around the stand down the bottom of the base and over the top.

Step 11: Loop the loop over the adjustment knob and cinch tightly.

ALWAYS WEAR A TMA APPROVED FALL ARREST SYSTEM WHEN USING ANY TREESTAND
